CSI is proud to announce the VCISO Offering

Virtual Chief Information Security Officers are experienced executives with backgrounds in professional service firms such as law firms, big-4 accounting firms and leading consulting firms. They are available to:

- Assist on a full or part time basis (minimum 10 hours a week)
- Fill a role in your firm for a few months or provide long term security support.
- Professionally manage your technical security staff
- Help define your security policies and standards, develop awareness and training programs, and move your current security projects to successful completion.
- Structure your security organization to support your information security needs.
- Assist in identifying a highly qualified candidate if your firm decides to hire a full time CISO.
- Provide on-site support for the duration of the engagement or they can work remotely to provide executive support.

VCISO testimonial

"We had plenty of access to technical security architects but needed an executive level security expert who could be our security executive on a part time basis -- CSI's SME was able to fill that role and provided us that executive expertise."

- CIO, major mid-west law firm
